Choose TAFE Western as your flexible and high quality training provider for your civil construction traineeships.

TAFE Western is the specialist traineeship provider to many employers, with over 1500 trainees currently being supported by TAFE Western across NSW in a range of industry areas.

Features of TAFE Western’s Civil Construction Traineeship Services

**High Quality Traineeship Trainers and Assessors**

TAFE Western has a team of experienced traineeship trainers and assessors who have current industry skills and nationally recognised qualifications to support your civil construction trainees.

**Traineeship Plus**

As the leading training provider in Western NSW, TAFE Western can offer our Traineeship Plus services to your civil construction trainees. Trainees can get easy access to TAFE Western’s range of short courses to provide additional learning opportunities to build their skills (see Short Course options overleaf). Traineeship Plus options are negotiated with your TAFE Western Assessor and are subject to availability. Tutorials through our connected classrooms and online courses are also an option.

**Excellent Learning Resources and Student Support Services**

All your trainees are provided with professional learning resources and they can also access free student support services such as our counsellors, tutorial support and our online yourtutor service.

**Industry Consultation**

We provide regular communication to update you on your trainees’ progress. We use our flexible and innovative approach to design training and assessment services to align with your workplace needs.

**Flexible Options**

- Recognition services for trainees with prior skills and experience
- Tailored workplace assessment that links to the job role and responsibilities of the trainee and aligns with your own training systems
- Assistance to access government training incentives through our partnerships with Australian Apprenticeship Services.
