INTRODUCTION TO ADOBE CAPTIVATE

TAFE WESTERN
ADOBE CAPTIVATE

Introduction for TAFE Western Staff
What is it?

Adobe Captivate is an electronic learning tool which can be used to author interactive learning resources, software demonstrations, software simulations, branched scenarios and randomized quizzes.

You can also upload and publish Adobe Captivate generated resources to websites or learning management systems such as Moodle.

It can also be used for screencasts, podcasts, and the conversion of Microsoft PowerPoint presentations to the HTML format.

Why use it?

Adobe Captivate offers a professional, interactive, cross platform product that allows users with limited programming capabilities to deliver content that:

- Meets meet accessibility standards WCAG 2.0
- Makes learning interactive by allowing students to try for themselves and learn by doing with show-me movies and let-me-try demos.
- Allows students to learn on any device, including iOS and Android devices.

How do I get it?

Adobe captivate is available to be installed on your TAFE desktop/laptop for FREE. You will need to log a request to the IT helpdesk on (02) 68857555.

Via email
servicedesk.western@tafensw.edu.au

Or online
Service Desk Support Request Form

If you would like to install this software on your personal computer you can take advantage the academic software discounts offered to staff members through the NSW Department of Education & Communities webstore.
