Questions and Answers about TVET Courses

**Q** What are TVET courses?
These are vocational courses that you can do at your local TAFE or flexibly while you are still at school. It is training targeted to careers, trades, industries and employment.

Vocational courses can help you gain hands-on skills that can be used in industry.

**Q** Do TVET courses contribute to my HSC?
Yes, TVET courses contribute to your Year 11 and Year 12 HSC program.

**Q** Are TVET courses the same as my other school subjects?
Yes, they have the same unit values as your elective subjects at school. Please see the course guide for the units in each course.

**Q** If I am in Year 9 or 10, can I do a TVET course?
If you are in Year 9 or 10, you are eligible to apply to do a TVET course, but you must meet specific criteria and be approved for funding. For further information, ask your school career advisor or contact your TAFE Campus TVET Coordinator.

**Q** How long does my course have to be studied?
You can study a course for one year or two years or even three if you started in Year 10.

**Q** Why would I do a TVET course?
TVET courses give you more subjects to choose from, practical training, employability skills and an insight into a certain career.

TVET courses provide you with two sets of credentials from the NSW Board of Studies, Teaching and Educational Standards (BOSTES) and nationally recognised qualifications from TAFE NSW which can contribute to further related study at TAFE or university. Employers will recognise your TAFE qualifications.

You can learn at a different place and meet students from other schools who have the same interests.

You will also enjoy working with TAFE teachers who have a hands-on approach to learning and specialised industry knowledge.

**Q** What is different at TAFE? What can I expect?
TVET courses are taught by trained industry experienced teachers in well-equipped training facilities.

Although you will be in an adult learning environment, TVET courses have the same BOSTES requirements as other HSC courses that you do at school. You will need to attend classes and complete the set assessments.

**Q** If I have a disability, can I do TVET?
If you have a disability, you can also access TVET courses. You can get support if your disability has been confirmed.

**Q** What if I want to go to university?
TVET courses called Industry Curriculum Frameworks can contribute to your Australian Tertiary Admission Rank (ATAR) if you complete 240 hours (usually two years) of the course, work placement and the optional state-wide external examination.
Q Will I miss school? When will I attend the TAFE class?
Most TVET courses are held on a VET school day and you will do VET at school and/or TVET at TAFE. The course could be in the morning or afternoon or even after school.

TVET classes usually run for three or four hours per week. Some Certificate III courses may be for five or six hours per week.

Q What is work placement?
Work placement means that you may be required, as a part of the course, to complete a specified number of hours in the work place.

Q Will I have to do work placement?
Many courses require work placement which can be in industry or in a simulated workplace depending on the course. You will need to check with your TAFE teacher.

Q What will I wear?
You do not have to wear your school uniform. However, in some courses you will have to wear protective clothing and use protective equipment.

Q How will I get to TAFE?
It is up to you to find your own way to the TAFE campuses. However, in some cases a bus can be arranged for you and other students. Ask your school career advisor what may be arranged for you.

Q How much will it cost?
If you are enrolled in a government school, the school will be billed but there is no cost to you for TVET.

If you are enrolled in a non-government school, the school will be billed and the school will pass on part of the cost to you.

Q What TVET courses are available?
All the TVET courses, locations and types of delivery are in this course guide.

Q How can I find out more?
For information about TVET courses, you can contact your school’s career advisor or TVET/VET Coordinator or a TAFE Campus TVET Coordinator, or log on to:

Q Will I get a TAFE certificate at the end of the course?
After completing the TVET course, you may receive two sets of credentials:
1. The TVET course will be listed on your HSC, if the BOSTES HSC requirements have been achieved.

2. If the TAFE requirements have been achieved, you will receive either a Transcript of Academic Record or, depending on the course, a Certificate I, II or III from TAFE NSW.

Q Are the TVET Face to Face course guaranteed to run?
No. Courses will run only if the student numbers are sufficient. However, it may be possible for you to join a mainstream class.

*A course will not be delivered if there are insufficient enrolments for the course to be viable.*
Talisha Kuras
Aboriginal TVET Student of the Year

TVET IPROWD

Coonabarabran High School student, Talisha Kuras, was an outstanding TVET student in many ways. One of the driving forces in her life is a desire to break down barriers between the NSW Police and the Aboriginal community, and that is one of the reasons why she enrolled in the Indigenous Police Recruitment Our Way Delivery (IPROWD) Schools course at Dubbo TAFE college.

Talisha won the Gibbs Family Award of Excellence for her effort and commitment to her studies. She is described as an all-round perfect student who stayed focused on her Higher School Certificate.

Even though she was determined to become a police officer and really enjoyed doing the IPROWD Schools course, she did not let it distract her from the main goal which was to get as good a result in her HSC examination as possible.

Talisha succeeded in this objective and is now in the full time IPROWD Program continuing to work on her ambition of joining the NSW Police Force.
Mudgee High School student, Jim Moore, demonstrated an extraordinary enthusiasm for vehicles and machinery of all kinds which was evident through his understanding of the Automotive curriculum. Jim demonstrated a commitment to both the theory and practical components of the training.

Jim is easy going, likeable and got on well with all his peers. He was very focused, diligent and organised. Jim achieved a Band 5 result for his Higher School Certificate Examination in Automotive which is an outstanding effort.

Jim was an excellent student and Automotive teacher, Jamie Andrews, said, “I was very proud to see him develop into an outstanding young man”.

Jim has successfully gained an apprenticeship as a Diesel Fitter with mining operator Glencore at the Ulan West coal mine.
Ella Miller
Trainee of the Year

Certificate II in Business

In 2014 Parkes High student, Ella Miller, successfully completed her Higher School Certificate and Certificate II in Business as part of a school-based traineeship with Parkes Shire Council.

During her traineeship, Ella demonstrated a high level of customer service, a strong work ethic, a positive attitude and established great rapport with her colleagues, and as a result, she was named as Skillset’s Trainee of the Year.

Jenny Kingham, TAFE Western’s Teacher of Business said, “Ella worked every Wednesday at the Council and during School Holidays”.

Ella is committed to furthering her education and is now employed at Northparkes Mine and completing a Certificate III in Business Administration.
Amber Noon
TVET Student of the year

Health Services Assistant

Canobolas Rural Technology High School student, Amber Noon, was placed fifth in the state in her Human Services Examination in the 2014 Higher School Certificate.

Fiona Ostini, TAFE Western’s Teacher of Nursing said, “Amber was one of the most conscientious students I’ve ever taught and she applied herself with great aptitude to the course in both the practical and theory components.”

Amber really enjoyed work experience and developed good relationships with her supervisors and patients. She was able to apply the theory she had learned – not something all nursing students are easily able to do. She is an articulate and confident person with excellent communication skills.

Amber applied to enter University and was rewarded with the choice of nursing, pharmacy or paramedic degree courses at Charles Sturt University. She is currently studying nursing while working at a local pharmacy.

Amber said, “TAFE has certainly helped prepare me for University. It was a great stepping stone into the foundations of nursing”.

How do I apply?

You apply through your school’s career advisor or TVET/VET Coordinator and ask for a *TVET Expression of Interest form* which must be signed by your parent or guardian and your school.

For more information about TVET courses, you can contact your school TVET/VET Coordinator or the TAFE campus TVET Coordinator.

The courses in this booklet are listed in alphabetical order.

The delivery locations and flexible delivery options are shown.

Don’t be afraid to ask for the course that is not showing at your TAFE/school.

Watch out for these symbols

- **Possible outcomes and pathways may change for 2015.**
- **In certain circumstances, year 10 students can access TVET courses.**

School Based Apprenticeships

School Based Traineeships

Australian Tertiary Admissions Rank

TAFE Western Connect enables students to access courses not offered at their local TAFE college. Online, video conferencing or by flexible delivery.

School Based Apprenticeships or Traineeships at TAFE

What are school based apprenticeships or traineeships?

School based apprenticeships or traineeships are a combination of school, part time employment and vocational study. You need to discuss school based apprenticeships or traineeships with your school’s career advisor.

If you are in Year 10, 11 or 12, you can undertake a part time apprenticeship or traineeship at TAFE and gain credit towards your Higher School Certificate.

If you are a school based apprentice or trainee, you will be paid for working part time - currently between 100 and 180 days before 31 December in the HSC year. This may require you to do some work during school hours.

While you are on the job, you will be provided with practical training by your employer.

Your formal training, usually 4-6 hours per week during school terms, counts as a HSC subject. In some cases it can also be used in calculating your ATAR.

For more information, visit www.sbatinnsw.info

If you undertake a school based apprenticeship or traineeship, you can achieve:

- a Higher School Certificate - in many cases achieving an ATAR
- a nationally recognised vocational qualification - usually at Certificate II or III level
- a Certificate of Proficiency
- paid part time work
- a head start to a career.
